LETTER OF SUPPORT

In advance of a potential Bond initiative, Holt Public Schools hired Granger to conduct a facilities audit in late 2018. Granger met with the Board of Education and Holt Public administration several times to better understand the format and type of information to be included in the final reports.

Holt Public is a district that serves 5550 students. We have ten schools and several axillary buildings that we requested Granger to audit. Our request included receiving the audit results in terms of beyond useful life, replace within 1-3 years, replace within 4-6 years and update between 7-9 years. By sorting the results of the audit into these four categories, Granger helped our leadership better understand the condition of our facilities. In addition, our leadership team now knows how to more effectively use our existing facilities budget to make strategic upgrades in advance of a potential Bond initiative.

Our Granger team worked to accommodate deadlines, special requests, and produced a final document that has allowed our leadership team to continue to prepare for the future. I would love to add detail and context to my narrative and I welcome the opportunity to share more. In the event you have additional questions about Granger, feel free to contact me.

Sincerely,

David G. Hornak, Ed.D.
Superintendent, Holt Public Schools
